

SENATOR CROSBY: Thank you, Madam President and members. Senator Schimek, I just have a couple of questions about money and that kind of thing if you can yield for a minute. That's all right. I understand that you have to have money to set up this office. I'm not arguing about that, but I noticed that you're paying the members of the commission. Is this...what did that come from? The Liquor Commission is about the only thing that comes to my mind that we pay a commission like that. So I was just curious why you pay the members of the...there are a number of them. Am I looking at the wrong fiscal statement?

SENATOR SCHIMEK: The fiscal statement, I believe was for the original bill.

SENATOR CROSBY: Okay, all right. See I was looking at the wrong...that confused me just a little about money.

SENATOR SCHIMEK: Senator Crosby, maybe I'm going to let Senator Withem respond to you because he has that in hand and I don't.

SENATOR CROSBY: Okay. Is this just an idea, the fiscal analysis, is this just an idea of how it might be set up as far as money?

SENATOR WITHEM: The fiscal note in your book on 579 would have been for the original bill which provided for a uniform registration form. I believe Senator Conway in one of his remarks made a reference to...for an idea of what the bill might cost, LB 580 which is...

SENATOR CROSBY: But 580 is what I'm looking at.

SENATOR WITHEM: Okay.

SENATOR CROSBY: I'm looking at the fiscal analysis...

SENATOR WITHEM: Oh, you're looking at 580?

SENATOR CROSBY: ...on 580...

SENATOR WITHEM: And the other thing is there would be some transfers of responsibilities from what current...most of the stuff that is done in here is being done now. We have elections.
